We are unable to publish the official returns of the county election this week, owing to the press of business at the office of the county clerk. The commissioners met in special session on Saturday last, and canvassed the returns. The only change from the report published in the CAT last week was to make Treasurer Hovey's majority one less and Sheriff White's one greater than we published. The official report of all the county and township officers elected will appear in our next issue.

Mrs. Phoebe Chesley, Peterson, Clay county, Iowa, tell the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 33 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to electric bitters for having renewed my youth and removed completely all disease and pain." Try a bottle, only 50 cents at C. H. Martin & Bro's. drug store.

There are two distinct kinds of farming—farming for a living and farming as a business. If a man farms for a living only, and gets it, he is a successful farmer in that line. If he is farming as a business, and only gets a living, he is then no worse off than the majority of those who style themselves business men.

A California paper passes Senator Plumb as Republican candidate for President, and gives him this send-off: "What is needed is a man whose qualities of character inspire confidence, and whose career shows an unselfish and competent performance of duty. In these respects, Hon. Preston B. Plumb, of Kansas, fills the whole measure."

He, like Lincoln, was of lowly origin, and has grown to the exalted position in the United States Senate. The workingman wants that the President should be of the people, and the people's president. The Hon. Preston B. Plumb is a man of large experience, great ability, far-seeing, and one of the most active and solid men now occupying a position of prominence before the people of the country.

In the framing of the anarchists the law has been vindicated. These men, whose words had inflamed the ignorant populace of Chicago, up to such notice as that of the Haymarket massacre, who taught the doctrine of murder, arson and theft, and gave instructions how to carry their doctrines into execution, and so inflamed the public mind that murder was the outcome, have paid the just penalty of their crimes.
